1942, 1956-1999. – 148 cm. of textual records (148 cm. of textual records). – 21 colour photographs. – 1 button.

ADMINISTRATIVE HISTORY

The Recovered Memory Task Group (RMTG), created in July 1993, was part of the Sexual Assault Network (SAN), a subcommittee of the Regional Coordinating Committee to End Violence Against Women (RCCEVAW). The RMTG’s main focus was to oppose the rise of the False Memory Syndrome Foundation (FMSF) popularity. Members of the RMTG included therapists, psychologists, lawyers and victims of assault.

During its years of operation, the RMTG gathered and disseminated literature on the false memory syndrome debate, educated public agencies and community groups with the conferences and information sessions, and furthered research in the field of the false / recovered memories debate. The RMTG also produced a paper available through SAN. It includes fourteen recommendations on strategies to adopt when advocating for the rights of victims of assault with recovered memories. The RMTG disbanded in 1997.

CUSTODIAL HISTORY

On January 22, 2004, Diane Davis, a former member of RMTG, contacted the ARCS regarding the donation of approximately 6 metres of documents from the RMTG. The documents were housed at Women’s Place / Place des femmes in Ottawa to facilitate the former RMTG’s and individual researcher’s consultation of the documents. In December 2005, the ARCS received four boxes of RMTG’s documents.

SCOPE AND CONTENT

This fonds is part of the Canadian Women’s Movement Archives (CWMA) at the Archives and Special Collections of the University of Ottawa Morisset Library. It contains minutes, conference programs, articles, photocopied press clippings and other documents on the RMTG’s administration and Bibliography project.

This fonds includes textual records, graphic material (photographs) and an objects (button) pertaining to the RMTG. It is organized into four series.
SERIES DESCRIPTION

This series consists of various documents such as minutes, programs, tentative budgets, pertaining to the RMTG’s organization and administration. The documents also include information kit, registration forms and evaluations of an RMTG conference Surviving in a Climate of Disbelief: Recovered Memories, Therapy and the Law. This series is divided into five sections: Minutes, agenda reports, etc., Organizations affiliated to the RMTF, Funding, Activities and conference and Public relation material.

This series includes documents such as articles, photocopies of press clippings, leaflets, pamphlets and other material. The material was compiled during the Bibliography project designed to collect as much material on the FMSF and recovered memories. Documents with a green sticker were used in RMTG’s information kits. We followed the categories and order as listed in the Bibliography project: Bibliography material, Background material, Legal, Research, Survivor publications and survivor-friendly publications, FMS publications, Magazine articles, Newspaper articles, RMTG writing to media, E-mail material, Incomplete material, Miscellaneous and New material to be discussed, sorted and filed. All categories are in alphabetical order except for Bibliography, Miscellaneous and New material to be discussed, sorted and filed who are listed who are in chronological order.

Series 3 : Graphic material - Photographs. – [10 or 11 November 1995?]. – 21 colour photographs (with Graphic material).
The photographs, originally stored in an envelope, were taken from Series 1 : Administrative records. They consists mostly of candid shots and photographs of events (i.e. artwork exhibit, conference, speeches, trips) presumably during the RMTG’s conference Surviving in a Climate of Disbelief : Recovered Memories, Therapy and the Law. The original documents were removed from their envelope, replaced by photocopies and placed in an acid free folder. For individual description of photographs, please consult RMTG (X10-101) Graphic material finding aid.

This button is part of loose material found in box 1352. The “F.I.B.S.” button used to promote the RMTG’s work and to counter the FMSF’s views on recovered memories. For individual description of button, please consult RMTG (X10-101) Inventory of object.
NOTE ON ARRANGEMENT AND DESCRIPTION

We maintained the original order as provided by the donor. Larger files were divided into multiple folders. Publications were integrated to the library collection and will be accessible through the library catalogue. These publications also appear at the end of this finding aid in the List of Publications.

NOTE ON LANGUAGE

Most of the documents are in English. Some of the documents are in French.

NOTE ON ACCESS

Most of the records are open to consultation. Files preceded by a red dot have access restrictions.

NOTE ON REPRODUCTION

In this fonds, we have, in some cases, made photocopies for conservation purposes (i.e. in the case of photographs, press clippings and documents printed on fax paper). In the case of newspaper clippings and faxes, we have retained only the copy made on archival paper.

Reproduction of documents is permitted, according to the Canadian Copyright Law.

NOTE ON FINDING AID

A nominal index for names of individuals is provided at the end of the finding aid.
